## TOTAL GROWING SYSTEMS

### ORION GREENHOUSES

The Orion – the poly option - open roof greenhouse. This versatile house was primarily developed for growers who want maximum ventilation, and maximum exposure to direct sunlight. Every Orion comes standard with roof vents that open 180 degrees to allow maximum ventilation and that will close quickly with a positive seal when inclement weather does occur.

### FEATURES

- ▶ DESIGNED FOR OPTIONAL UPGRADE FROM DOUBLE POLY TO GLASS OR POLYCARBONATE COVER
- ▶ ELIMINATE COSTLY EXHAUST FANS AND INTAKE SHUTTERS
- ▶ CROPS RECEIVE FULL, UNOBSTRUCTED SUNSHINE WHEN REQUIRED
